

PROFESSIONAL EDUCATION WEBINAR PROGRAMME

As part of our commitment to oral health and to support you, our professional partners, we are excited to announce our Continuing Professional Development programme for dental and health care professionals. Below you will find details of the confirmed events, which are live and open for registration. To register you can click on each webinar title.

**Tuesday
25 May 7pm
A Pragmatic Approach
to Facilitating and
Delivering Improved
Oral Care in Dependent
Older People**

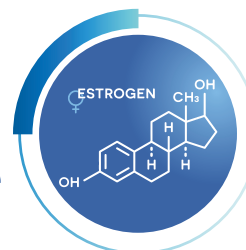

Jane Peterson

LEARNING CONTENT

Attendees will have a greater understanding of the challenges that teams can face in delivering oral care for dependent and older adults. The importance of interdisciplinary and multidisciplinary care will be a key factor and the importance of having a person-centred approach to facilitate better outcomes will be better understood.

**Thursday
10 June 7pm
Oral Health Through
the Life stages of the
Female Patient**

Juliette Reeves

LEARNING CONTENT

Attendees will have a broader understanding of female hormones and how the hormone status can impact on female oral health across the life course and stages of life.

**Thursday
15 July 7pm
Dry Mouth**

Dr Roddy McMillan

LEARNING CONTENT

Attendees will have a greater understanding, confidence and competence in the management of patients with dry mouth.

**Thursday
16 September 7pm
Cognitive Function
& Periodontal
Disease in The
Older Person**

Consultant Jodie Bustin

LEARNING CONTENT

Attendees will be more aware of conditions which impair cognition and how these may impact on periodontal diseases and how best to manage these.

**Thursday
7 October 7pm
Role and Impact of
using XyliMelts in
the Last Year of Life**

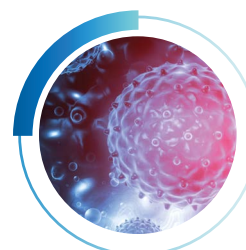

Dr Siwan Seaman

LEARNING CONTENT

Attendees will have a greater understanding of the complex needs of patients with Xerostomia in the context of palliative care.

**Tuesday
12 October 7pm
Team Approach
to the Mouth Cancer
Patient**

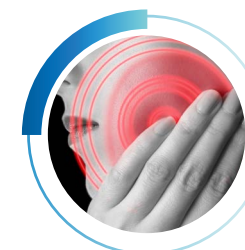

Jocelyn Harding

LEARNING CONTENT

Attendees will have a greater understanding of a mouth cancer diagnosis from a patients perspective, and the importance of oral care in their treatment.

**Thursday
11 November 7pm
Lichen Planus &
Oral Cancer**

Dr Roddy McMillan

LEARNING CONTENT

Attendees will have an improved understanding and confidence in the management of patients with oral lichen planus and better knowledge of when to refer.

**Thursday
9 December 7pm
Oral Ulcers**

Dr Roddy McMillan

LEARNING CONTENT:

Attendees will have a greater understanding and level of confidence when managing patients with oral ulcers.
